DETAILED ACTION

The preliminary amendment, which included cancellation of claims 9, 10, 12-20 and amendment to claims 2, 5, 6, 8 and 11, filed on 4/3/2006, is made of record.

Claims 1-8 and 11 are now pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Recitation "A compound having a structure of general formula(I)" in claim 1 is vague and unclear as to what is intended. Its replacement with "A compound of formula (I) is suggested.
2. Recitation of "substituted" in parenthesis at various places in claims 1-5 renders these claims indefinite as it is not clear whether the said groups are substituted or not. An appropriate correction is needed.
3. Again in claim 1, the R" and R"" definition is confusing as it repeats "heterocyclic rings" twice. An correction is needed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1624

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Henze et al., J. Amer. Chem. Soc., 79, 2230-2232, 1957.

See page 2232, Table IV and entry 7.

Claim 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Schindler et al., US 6,844,347.

See column 3, formula 1, which includes instant compounds generically. See column 14-17, examples 16 –143, which include instant compounds.

Claim 1-3 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by John et al., US 6,518,424.

See table 1, compound 2 (column 8), Also see sheet IB for amino compound.

Claim 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Gelsen et al., US 5,138,058.

See column 1, formula 1, which includes instant compounds generically. See column 5-8 for Table of compounds and column 8-10 for examples 1-12, which include instant compounds.

Allowable Subject Matter

Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable, barring finding of any prior art in a subsequent search, if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
